    - very near to JR Iidabashi station and easy to access from Tokyo and Shinjuku station.

Event contents

- We'd like Eben to give 'Keynote' for Japanese Raspberry Pi Users

- I and RS Japan choose Japanese remarkable Projects and ask each of those projects' owners to give a talk as a session.

- We will hold Lighting Talks session so that attendees can introduce their projects to other attendees, Eben and Liz.

  - Whoever comes first will be served first as a speaker (will call for at the event)

- We will have some booths for exhibiting Japanese Raspberry Pi projects to other attendees, Eben and Liz.

  - Calling for the exhibitor (but a couple of booths are reserved by RS Japan (Sony,YAMAHA and some media would exhibit))

SPEAKERS INTRODUCTION

TAISUKE FUKUNO
CEO OF JIG.JP
CREATOR OF
ICHIGO JAM

Other information

- We will help and support with translators and English speaking volunteers for Eben and Liz.

    - We will entrust the event management to begi.net, which is a famous OSS event management company - they mainly manage OpenSource conference in Japan.

    - We users group members and volunteers mainly help Eben and Liz at the event.

    - We will have a lounge for Eben and Liz to feel comfortable and safe.

- We will take Eben and Liz to the venue from the hotel they will stay (same as the past event in 2013).

- if Liz is staying at the hotel while the event, it is okay. if she would attend only the reception we will take her there.

DO HOPE OUR EVENT WILL BE SUCCESSFUL!
